Surface albedo α = 0.1
Surface albedo α = 0.2
Surface albedo α = 0.3
Surface albedo α = 0.4
Surface albedo α = 0.5
Surface emissivity ε = 0.9
Surface emissivity ε = 0.95
Surface emissivity ε = 1
Infrared optical depth τ_{IR} = 5
Infrared optical depth τ_{IR} = 10
Infrared optical depth τ_{IR} = 20
Infrared optical depth τ_{IR} = 30
IR weighting coefficient f = 0.15
IR weighting coefficient f = 0.5
Downward IR at model top I_{IR} (W m^{-2}) = 0
Downward IR at model top I_{IR} (W m^{-2}) = 2
Downward IR at model top I_{IR} (W m^{-2}) = 8
Solar constant factor = 0.9
Solar constant factor = 1
Solar constant factor = 1.1
Table 3 configuration, Kirchhoff-consistent
Most favorable corner
Corner with Δθ − σ
Max. verified contrast
10^0
10^1
$\Delta T_{req}(4)$, Kirchhoff-consistent, longwave only (K)
